

Education

JAN 2022 – Present	Master's in computer science , Arizona State University	CGPA: 4.00
SEPT 2017 – JUN 2021	Bachelor's in information technology , K. J. Somaiya College of Engineering	CGPA: 8.56

Skills

LANGUAGES	Python, C++, Bash, HTML, CSS, JS, SQL, Matlab, C, Java
DATABASES	PostgreSQL, MySQL, SQLite, MongoDB, RocksDB, HDFS
TOOLS & MORE	Git, Kubernetes, Docker, Django, Pandas, TensorFlow, AWS, Azure, IBM Quantum
SOFT SKILLS	Project Management, Leadership, Consistency, Communication Skills, Creative problem solving

Experience

Analyst (Intern), Cyber Peace Foundation MAR 2020 – AUG 2020

- Developed automated crawling and investigating pipeline in 2 months for abusive content on various social media.
- Team Leader for creation of detection and reporting tool for fake/malicious COVID websites. The tool successfully analyzed over 10,000 websites, identifying, and reporting 503 websites as malicious.

Developer (Intern), KEM Teaching Hospital MAY 2020 – AUG 2020

- Implemented and deployed an interactive dashboard for KEM Hospital to monitor patients in the COVID-19 pandemic.
- Tool used for 7+ months in the pandemic, assisting in management and cleaning 5000+ patient records to create a centralized hospital records database.

Projects

RocksDB instance sync FEB 2022 – Present

RocksDB, C++, Docker, Kubernetes, Git, CD (GitHub Actions).

- Implemented a distributed RocksDB-based service that allows for multiple consistencies within the same DB service.

Memories MAY 2021 – Present

Python (OpenCV, PIL), Git (GitHub), CD (GitHub Actions), package creation

- Creator and maintainer for Python Library **'Memories'** for Image Segmentation and Metadata management.
- The library has 7000+ downloads till date and plans to integrate Google Photos synchronizing in future releases.

CoView: Hospital management system JUN 2020 – SEPT 2020

Leadership, Communication Skills, Full stack development (Django), DevOps (AWS), Git

- Successfully designed system to clean and combine data for 5000+ patients from multiple sources into a single file.
- Managed team of 5 developers, assigning tasks and successfully managing timeline and meeting hospital requirements.

Landscape Analysis for OCSA and OCSE OCT 2019 – FEB 2020

Project Management, Creative problem solving, Python (requests, OpenCV)

- Constant research over 3 months in a team of 6 about Online Child Sexual Abuse and Exploitation (OCSA & OCSE) in India.
- Developed tool to search Legal Cases and filter instances of OCSA and OCSE, generating a report with 50+ cases.
- Project funded by a grant of **USD 91,666.80** from Children's Investment Fund Foundation (CIFF) in the UK.

Project Chakravayuh SEPT 2018 – OCT 2020

Leadership, DevOps (Azure, Docker), Python (requests, Pandas, scikit-learn), CV (OpenCV, TensorFlow)

- Operated a team of 6, developing a distributed system for dark-web crawling with capabilities of text-analysis, media-analysis, form-filling, website monitoring.
- Successfully coded and integrated media-analysis module to automatically tag any media based on its content (metadata and computer vision) and form-filling module to access content hidden behind login prompts.

Extra-Curricular

Team KJSCE Robocon | Vice-captain of college robotics team

- Spearheaded a team of 40+ individuals and mentored members to take over the team in coming years.
- Worked on micro-controllers (Arduino) and micro-processors (R-Pi, Jetson Nano) along with various sensors (LiDAR, Camera, Ultrasound, Potentiometers, etc.) and control systems.
- Achieved National Rank 8 and Winner of Best Solution Idea amongst 50+ teams in "DD-Robocon 2020".

Internship and Hackathon Organizer | Individual capacity within department

- Conceptualized and organized college-wide internship activity alongside college faculties. Created and managed task assignments and updated for 100+ interns for over 2 semesters.
- Worked alongside college's computer science society for organizing and managing College Hackathon.
