Education

Bachelors' degree in Information Technology from K. J. Somaiya College of Engineering **CGPA: 8.56 (2017 – 2021)**

Work Experience

Analyst Intern - Cyber Peace Foundation: Dark Web and Social Media Investigation **MAR 2020 – AUG 2020**
Automation of investigation and analysis process by development of a crawler. Modules to analyze text, and media content were developed and used successfully.

Developer Intern - CoView, Hospital management system **MAY 2020 – AUG 2020**
Developed and deployed an application for KEM Hospital, Mumbai to monitor patients during the COVID-19 pandemic. The project focuses on data cleaning, data analysis on the dashboard, and patient management aspects.

Projects

Crowdsourcing based optimization of Medical Resources attending demand equalization **JUL 2020 – MAY 2021**
Creation of an ML-based tool which employees resource crowdfunding for and amongst hospitals. It extends into the creation of hospital management software as well.

Landscape Analysis for OCSA and OCSE **OCT 2019 – FEB 2020**
*Work on the trends and different forms of Online Child Sexual Abuse and Exploitation (OCSA & OCSE) as the penetration of online technology has amplified.
Project funded by a grant of USD 91,666.80 from Children's Investment Fund Foundation (CIFF) in the UK.*

MALANG: Malware Analysis Generator **MAR 2019 – SEPT 2019**
Creation of an architecture that finds an application on google play stores alternatives (APKmirror, Aptoid, etc) and compares the versions and software for the apps on the other stores.

Project Chakravyuh **SEPT 2018 – OCT 2020**
Development of a dark-web crawler that incorporates crawling, scraping, text-analysis, media-analysis, form-filling, website activity tracking. Project presented and praised by various LEAs and companies like Facebook.

Publications

Recognizing Child Unsafe Apps through User Reviews on the Google Play store **22 July 2021**
2021 International conference on Advanced Computing and Intelligent Technologies (ICACIT 2021) [Conference Paper](#) 

Explainability using Decision trees and Monte Carlo simulations **17 June 2021**
4th International Conference on Advances in Science & Technology (ICAST 2021) [Conference Paper](#) 

ML Enabled Informed Intervention for Crowdsourcing based Optimization of Medical Resources **Book Chapter**
Handbook of Research on Applied Intelligence for Health and Clinical Informatics *In process of publication*

Achievements

Research for NCPDR (National Commission for Protection of Child Rights) **2019**
Research work for the NCPDR for a dark web report that was submitted to the Rajya Sabha of India.

Technical Activities

Internship organizer for 200+ college students **2020 – 2021**
Quantum Computing course by IBM Quantum & The Coding School **2020 – 2021**
Vice-Captain & Head of Matlab and IP at Team KJSCE Robocon **2018 – 2020**
Project presenter at 2nd Technology Marketplace by CIFF **2019**
Ethical Hacking course by K. J. Somaiya College of Engineering **2018**

Skills

Languages Python, HTML, CSS, JS, Matlab, C, C++, Java
Tools/Libraries Git, OpenCV, Django, Pandas, Simscape Multibody, Docker, Basics of Azure/GCP/AWS, React JS
