

Education

JAN 2022 – Present	Masters in Computer Science , Arizona State University	CGPA: 4.00
SEPT 2017 – JUN 2021	Bachelors in Information Technology , K. J. Somaiya College of Engineering	CGPA: 8.56

Skills

LANGUAGES	Python, C++, Bash, HTML, CSS, JS, SQL, Matlab, C, Java
DATABASES	PostgreSQL, MySQL, SQLite, MongoDB, RocksDB
TOOLS & MORE	Git, Kubernetes, Docker, Django, Pandas, TensorFlow, AWS, Azure, IBM Quantum
SOFT SKILLS	Project Management, Leadership, Communication Skills, Consistency, Creative problem solving

Experience

Analyst, Cyber Peace Foundation MAR 2020 – AUG 2020

- Developed automated crawler to investigate and analyze various social media platforms for abusive content.
- Team Leader for creation of detection and reporting tool for fake/malicious COVID websites. The tool successfully analyzed over 10,000 websites, identifying, and reporting 503 websites as malicious.

Developer, KEM Teaching Hospital MAY 2020 – AUG 2020

- Team Leader in development and deployment of interactive dashboard for KEM Hospital, Mumbai to monitor patients during the COVID-19 pandemic.
- Responsible to develop system that would clean hospital records and create consistent and centralized records database.

Projects

RocksDB instance sync FEB 2022 – Present

- Creating a distributed RocksDB infrastructure that allows for multiple consistencies in the same db.
- Tools & Skills: RocksDB, C++, Docker, Kubernetes, Git, CD (GitHub Actions).

Memories MAY 2021 – Present

- Creator and maintainer for Python Library ‘[Memories](#)’ for Image Segmentation and Image Metadata management.
- Tools & Skills: Python (OpenCV, PIL), Git (GitHub), CD (GitHub Actions), pip development
- Library has over 7000 downloads till date and plans to include features like sync with Google Photos in the future.

CoView: Hospital management system JUN 2020 – SEPT 2020

- Team Lead for CoView. Managed timeline, development, and deployment of project
- Tools & Skills: Leadership, Communication Skills, Full stack Development (Django), DevOps (AWS), Git
- Responsible for Deployment and Maintenance of project. Project was deployed on AWS using EC2, Lambda, S3.

Landscape Analysis for OCSA and OCSE OCT 2019 – FEB 2020

- Worked on how reporting technology has brought about Online Child Sexual Abuse and Exploitation (OCSA & OCSE).
- Tools & Skills: Communication Skills, Creative problem solving, Python (requests, OpenCV)
- Developed tool to automate search and filtering of instances of OCSE and OCSA in Legal Cases to generate a report.
- Project funded by a grant of [USD 91,666.80](#) from Children's Investment Fund Foundation (CIFF) in the UK.

Project Chakravyuh SEPT 2018 – OCT 2020

- Team Lead for a dark-web crawler with capabilities of text-analysis, media-analysis, form-filling, website monitoring.
- Tools & Skills: Leadership, DevOps (Azure, Docker), Python (requests, Pandas, scikit-learn), CV (OpenCV, TensorFlow)
- Developed media-analysis module and partly developed form filler module. Responsible for managing team schedules, presentations, goals, and timelines.

Extra-Curricular

Team KJSCE Robocon | Vice-Captain of College Robotics Team

- Responsible for management and mentoring a team of 40+ individuals.
- Worked on micro-controllers (Arduino) and micro-processors (R-Pi, Jetson Nano) along with various sensors (LiDAR, Camera, Ultrasound, Potentiometers, etc.) and control systems.
- Achieved National Rank 8 and Winner of Best Solution Idea amongst 50+ teams in “DD-Robocon 2020”.

Internship and Hackathon Organizer | Individual capacity within department

- Conceptualized and Organized college-wide internship activity alongside college faculties. Created and managed task assignment, and updates for 100+ interns for over 2 semesters.
- Worked alongside college's computer science society for organizing and managing College Hackathon.
